- Professional Skills: Problem Solving, Written and Verbal Communication, Time Management, Independent Work, Remote Collaboration, Fast Learner
- Creative and Media: Video Editing, Animation, 3D Art, Sound Engineering, Photo Editing

Professional Experience

IT Support Internship
Cloud Havens Consulting | 2024 - 2026

- Provided first-level technical support to end users by troubleshooting hardware, software, network connectivity, and system access issues.
- Installed, configured, and maintained desktop computers, laptops, printers, and peripheral devices to support daily business operations.
- Assisted with diagnosing and resolving Windows operating system, Microsoft Office, and common business application issues.
- Supported user account administration, including password resets, account setup, and access permission requests.
- Documented technical issues, troubleshooting steps, and resolutions to maintain accurate IT support records.
- Assisted with software installation, system updates, antivirus configuration, and routine preventive maintenance.
- Troubleshot basic network connectivity issues involving Wi-Fi, LAN connections, IP configurations, and internet access.
- Collaborated with IT team members to investigate technical incidents and escalate complex issues when necessary.
- Assisted with hardware inventory management, equipment setup, and IT asset tracking.
- Provided technical guidance to employees on basic system functionality, application usage, and IT security best practices.

Digital Transformation | IT Industry | Enterprise Product Strategy

Freelance Content Creator | 2022 – 2024

- Collaborated on commercial video production projects, editing Reels, videos, audio, and photo content to project specifications.
- Performed post-production work, including video cutting, sound enhancement, and photo refinement, to improve overall content quality.
- Supported content distribution across YouTube and other streaming platforms, optimizing media for online engagement and audience reach.

Freelance 3D Artist | 2022 – 2024

- Supported colleagues in developing CGI characters for commercial projects, contributing to digital content creation and visual production.
- Assisted in creating and developing a VTuber model for commercial use, bringing the digital character concept to life.
- Worked independently and with remote collaborators, managing deliverables and troubleshooting technical issues in software-heavy workflows.

Computer Technician, Family Business | 2012 – 2018

- Provided technical support for computers, printers, and peripheral devices, ensuring reliable operation and customer satisfaction.
- Diagnosed and resolved hardware, software, and connectivity issues across a variety of systems and devices.
- Assisted customers with device setup, configuration, and troubleshooting, explaining solutions clearly to non-technical users.
- Managed multiple technical support requests while maintaining efficient service and clear communication.
